Contractual Execution

Project	Current Status
AVP	Social Management: • The activities related to the “Review and approval of the PACRI design (Involuntary Resettlement and Compensation Plan)” for Sections I and III have been completed. • An amendment to the Concession Contract is under evaluation, due to the extension of the deadline for clearing interferences in Sections I and III, which is expected to be completed in April 2027.
FHH	Technical Management: • In cooperation with COFEPERÚ, the method for submitting technical notes was defined, and on Interferences, the engagement agreement was signed for preparing the technical file for interference clearance with SEDAM, along with issuing comments on the technical-economic proposal submitted by the concessionaire. Property Management: • Coordination took place with the MTC's Asset Management Office to carry out actions for safeguarding the concession area, and a joint inspection is planned for October 22–26.
HEVES	Pre-Operational Phase: Maintenance and Availability Phase for Existing Assets • Activities began on: i) equipment availability; and ii) maintenance of the hospital's infrastructure and facilities (Health Services Production Unit – UPSS Outpatient Consultation and the Services Production Unit - UPS Administration, UPSS Pharmacy and UPSS Medical Residency). • The Parties are reviewing and agreeing on the final version of the proposed Administration and Payment Trust Agreement.
